DRUG AND ALCOHOL POLICY (GF Australia)

Reasonable Cause Observation Form

Details			
Employee / Contractor Name		**Date observed**	
Department / Area		**Time observed**	
Manager / Supervisor		**Location observed**	
Support Person			

GF Australia may require an employee or contractor to undertake a drug and / or alcohol test where GF Australia considers that the individual is potentially influenced or impaired by drugs and / or alcohol.

Drug and / or alcohol testing will be considered appropriate where a Manager / Supervisor:

- indicates the individual is exhibiting **two (2) or more** of the below indicators; and,
- answers **all** determination questions in the affirmative.

A Manager / Supervisor or other appropriate person may complete this form
- alone, however, must have it verified by another person; or,
- they may choose to ask another person to participate in the process.

A Manager should consider requesting an employee representative (e.g. H&S or Union Representative) to be a part of this process.

Note: Those persons completing the form do not have to agree that the same indicator/s are being exhibited (i.e. the Manager / Supervisor and the other person/s could each believe two (2) different indicators are exhibited by the individual).

Reasonable grounds testing may also take place where GF Australia learns, from a credible source, that an employee or contractor is working under the influence of drugs and/or alcohol, or where the individual is observed using, possessing, distributing or consuming drugs or alcohol during work time, during any breaks and/or during a company social event or work-related function, whether on or off GF Australia premises or during or outside normal working hours. Reasonable grounds testing may also take place where there has been a reference made by an employee or contractor that they have recently consumed alcohol or drugs.

Indicators

The indicators below outline some common behavioural and physical signs that could suggest a person is under the influence of drugs and / or alcohol. It is not an exhaustive list and not all items on their own indicate impairment from drugs or alcohol. Therefore, it is important to consider whether a given indicator is a change in behaviour / physical appearance from how the individual would normally present.

Indicator	Observed	Indicator	Observed
1. A smell or odour of drugs or alcohol coming from the person, their clothing or possessions		2. A reduced ability to perform tasks requiring concentration and co-ordination	
3. Dizziness, staggering walk, confused or disorientated in such a way that is different from how the employee normally acts		4. A change in motor skills ability	

This document is uncontrolled if printed. Please consider the environment before printing this document.

DRUG AND ALCOHOL POLICY (GF Australia)

5. A change in speech patterns, e.g. slurred speech		6. Involvement in incident(s)	
7. Changes in appearance of facial features, e.g. bloodshot, glassy, squinty or sunken eyes, dilated pupils or teeth grinding		8. Possession of alcohol, drugs and / or drug / alcohol paraphernalia	
9. Erratic or unusual behaviour			

Notes

Determination Questions	Manager / Supervisor	If applicable
